2021 NAPA VALLEY *Sauvignon Blanc*

“One of the best Napa Sauvignons I’ve tasted.”

The Wall Street Journal’s Lettie Teague featured Groth 2021 Napa Valley Sauvignon Blanc as one of her top five white wines for summer.

Groth was the only U.S. winery represented on the list spotlighting “consistently good white wines that reliably provide excellent value.” Teague writes, “Groth produces sought-after Cabernet Sauvignons, but the quality of the winery’s Sauvignon Blancs is just as noteworthy. This bright, juicy white with notes of citrus is beautifully balanced.” — *July 21, 2022*

Bright red/purplish berry fruit, spice and lifted floral notes lend freshness to this attractive, vibrant, mid-weight Cabernet. The 2019 is very nicely done, and is also one of the most approachable wines of the year, even though there is plenty of grip.”

“The 2018 Cabernet Sauvignon (Oakville) is fabulous. Moreover, it shows the important strides that have been made here in recent years. A wine of depth as well as energy, the Oakville Cabernet is both complete and absolutely delicious. Time brings out a whole range of leather, spice and chocolate notes to play off a core of intense, dark-fleshed fruit. ... In a word: impressive.”

2018 OAKCROSS *Proprietary Red*

“A new wine in this range, the 2018 Oakcross is a blend of 78% Cabernet Sauvignon, 20% Merlot and 2% Petit Verdot. Merlot adds mid-palate sumptuousness to this gorgeous Oakville red blend. Silky and racy to the core, but with plenty of tannins to support it all, the Oakcross has a ton to offer. Dark plum, espresso, licorice, spice and cedar linger nicely.”

2019 RESERVE *Cabernet Sauvignon*

94 pts

“A fresh, overt style, with a lovely beam of red currant, Bing cherry and raspberry paste stitched together with flickers of anise, sassafras and bramble. Delivers a pretty violet echo on the fruity finish.”

— *James Molesworth, Wine Spectator*

94+ pts

“A terrific Oakville effort loaded with pure cassis fruit as well as notes of spicy oak, scorched earth, and tobacco. Classic Napa Cabernet in every way, it’s medium to full-bodied, has ripe, polished tannins, a terrific spine of acidity, and the balance and purity to evolve for 20-25 years if well stored.”

— *Jeb Dunnuck*

2018 RESERVE *Cabernet Sauvignon*

“This has the vivid, driven cassis, boysenberry and blackberry fruit of the vintage, but it’s well-harnessed, with streaks of racy anise, alder and sweet bay leaf providing focus and precision. There’s a long echo of iron and savory through the finish as the fruit lingers, leaving a mouthwatering feel. Understated in style compared with its colleagues, but no less complex.”

— *James Molesworth, Wine Spectator*

“A gorgeous, classically built wine, the Reserve is just fabulous today. Dark red-toned fruit, cedar, spice and mocha lend considerable energy as the 2018 gradually opens in the glass.”

Cabernet Sauvignon Oakville Reserve 2016

Groth owns 121 acres smack in the middle of Napa's coveted Oakville AVA. Founded by Dennis and Judy Groth in 1982, the Oakville estate has endured some ups and downs, including a large-scale replant that resulted in the absence of a Cabernet Sauvignon Reserve from its lineup from 2000 to 2004. The vineyard is now in its prime, and the reserve blocks total 27.5 acres, generating a focused and refined Cabernet with an intense, fruit-driven core. Winemaker Cameron Parry ferments in stainless steel and presses before full dryness, lending a sweet fruit quality to the wine. He then ages it in 100 percent new oak for 22 months.

GENERAL PRESS

FEATURE: *Historic Wineries Through New Eyes*

Wine Enthusiast profiles Groth Director of Winegrowing Ted Henry in a February 2022 feature on winemakers taking the helm at iconic Napa Valley properties.

Ted Henry joined the historical Groth Vineyards & Winery in 2021, after working at Trinchero Family Estates, Jarvis Estate and Clos du Val, all in the Napa Valley.

In the heart of Oakville, Groth was founded by Dennis and Judy Groth in 1981, starting with a 121-acre vineyard parcel. Another 44 acres south of Yountville were added the following year.

“I always found Groth to be a positive legacy in the Napa Valley, a blue chip,” says Henry. “They are a leader in Oakville and a family I had respect for and wines I had respect for, too. The stability drew me.”

The family has lived on the property since those early days and remains fiercely estate-driven, known for Cabernet Sauvignon, Chardonnay

and Sauvignon Blanc. The Groths’ daughter, Suzanne, is president and CEO.

She cites Henry’s knowledge of single-vineyard and estate wines as part of the inspiration for his hire, as well as his expertise in organic farming.

Henry grew up on a ranch in the San Francisco Bay Area and went to Davis for fermentation science, working in the labs of both sensory chemist Dr. Ann Noble and plant biochemist Dr. Douglas Adams.

“Groth is about elegant wines consumers seek out that are balanced,” says Henry. “That’s on board with what I like to do.”

With ownership and wine style on solid footing, Henry is focused on doing a deep dive block by block,

digging soil pits and taking Enhanced Vegetation Index (EVI) photos to measure vigor. In 2021, he was able to pick the grapes based on these measurements, identifying 14 different zones within the blocks.

“I want to get more out of what we already have, squeak out another 2 to 3% of quality,” he adds.

WINE SPECTATOR: *Ageability*

“I splurged on a bottle of **Groth Cabernet Sauvignon Napa Valley Reserve** from 1992, a sneaky good year. ... This wine was perfectly on point for me. ... Singed herb and wood notes provided detail to the mature currant fruit core, with a whiff of smoke curling through the finish.”

WINE SPECTATOR: *California Cabernet Report*

“Moving up into the valley, the Oakville AVA showed why it is hallowed ground. Home to prominent vineyards such as To Kalon, the AVA covers the breadth of the valley from east to west, resulting in some style differences. **But the sweet spot is the center fillet around the Oakville Grade Road and up into the western edge. From here, the Groth Cabernet Sauvignon Oakville 2016 (92, \$65) is as good a deal as you can find in Napa Cabernet, offering a hint of singed savory and a core of raspberry and mulberry fruit lined with alluring tea, sanguine and iron notes.”**

Groth at the Cross Road

A vertical tasting of Groth's Cabernet Napa Reserve back to the 1980s reveals consistency and growth

James Molesworth

After my visit at Ovid, atop Pritchard Hill, I stuck to the valley floor for my next. The differences couldn't be starker, but it's that dichotomy that makes Napa Cabernet so fascinating. Ovid has 15 acres of vines struggling on scraggy volcanic rock.

At Groth, located on the filet mignon of Napa Valley, the Oakville Cross Road, there are 121 acres of vines seemingly gorging themselves on deep loam and gravel. And yet both make compelling wines.

When Dennis and Judy Groth bought a property in Napa Valley in 1981, it was meant to be a retirement spot.

Dennis was working in the Bay Area for Atari during its heyday, and he didn't know anything about farming, but he did like the property, which had some vines planted by Justin Meyer in the early '70s. As Groth kicked around during his spare time he hired Ben Benson to replace the fading vines and expand the vineyard a bit. The plan was to sell off the fruit. A small amount was bottled under the Groth name, debuting in 1982. A second property of 44 acres was purchased that same year.

But when Atari crashed in the mid-80s, the "retirement" plan was accelerated, and Groth moved his family up to Napa. And when the market for buying grapes didn't materialize the way Groth expected,

plan B became to make all the wine themselves. By 1985, with Nils Venge as winemaker, Groth was cranking out 30,000 cases of wine. A winery was built in 1990 to keep up with the growing production and in '94 Michael Weis replaced Venge as winemaker. Weis oversaw another large-scale replanting started in 1998 during which time production dropped. By 2001 the vineyard was back on an upward trajectory. ...

It was Venge who isolated the first reserve block for its potential for Cabernet. There is some soil variation on the site, and a cooler corner where Chardonnay, Sauvignon Blanc and Sémillon are grown. There's some Merlot, too. But it's the Reserve blocks (there are now two) that have earned Groth its reputation. The reserve blocks total 27.5 acres — nearly twice the total of Ovid's entire vineyard.
